Report for Offender Under Supervision

Dear Judge Chesler:

On April 10, 2008, the above-captioned offender was sentenced to five years probation for the offense of conspiracy to distribute and possession with intent to distribute oxycodone. Special conditions included drug testing and treatment, and mental health treatment.

As the enclosed petition attests, Lopez has reverted to drug use. On December 29, 2010, a urine test procured from the offender tested positive for cocaine use. Lopez candidly admitted to the cocaine relapse citing family conflicts, and not taking his medications as the cause of the regression. It should be noted that since the commencement of supervision, Lopez has been involved in drug and mental health treatment and, for the most part, he has been cooperative with treatment directives. The offender has a diagnosis of bipolar disorder and is medicated with Lithium and Ambien.

Lopez currently attends random urine drug testing and has been compliant with reporting appointments. He has indicated a willingness to address his drug relapse by resuming intensive outpatient drug treatment. Lopez has been referred to Turning Point in Verona, New Jersey. While at the program, both his drug and mental health needs will be addressed.

Since his release to supervision, the offender has been sporadically employed by roofing companies. Lopez alternates his residency between his girlfriend's house in Bloomfield and his parents in Newton, New Jersey.

Based on the offender's willingness to address his relapse, we are requesting no action be taken at this time. We will immediately notify Your Honor of any further non-compliance.

Should the Court concur with our recommendation, Your Honor's signature on the enclosed Form 12A will serve as an official reprimand from the Court. If Your Honor wishes to discuss this matter or desires a sanction or court appearance from the offender, we remain available at the Court's convenience.

Respectfully submitted,

Christopher Maloney, Chief
U.S. Probation Officer
